

Presentation on Surveillance

Presented by :

Sushobhan Mukherjee

Prime Infoserv LLP

CCTV

- CCTV (Closed Circuit Television) is the monitoring and recording of people, processes or property through the use of a camera and other related electronic security systems.
- This form of visual security can be sub-divided into analogue and IP (Internet Protocol) solutions.

Benefits of CCTV

- Monitoring
- Safety
- Productivity
- Access Control
- Automation

Selection Criteria

- Dome, Bullet, Box Camera
- Fixed Zoom, Pan Tilt (PTZ)
- Vandal Proof
- Night Vision
- High Speed Dome
- Analogue /IP Camera / Wireless Camera
- Compatibility
- DVR/NVR
- VMS/Analytics Support

CCTV Deployment Scenarios

CCTV Deployment Scenarios

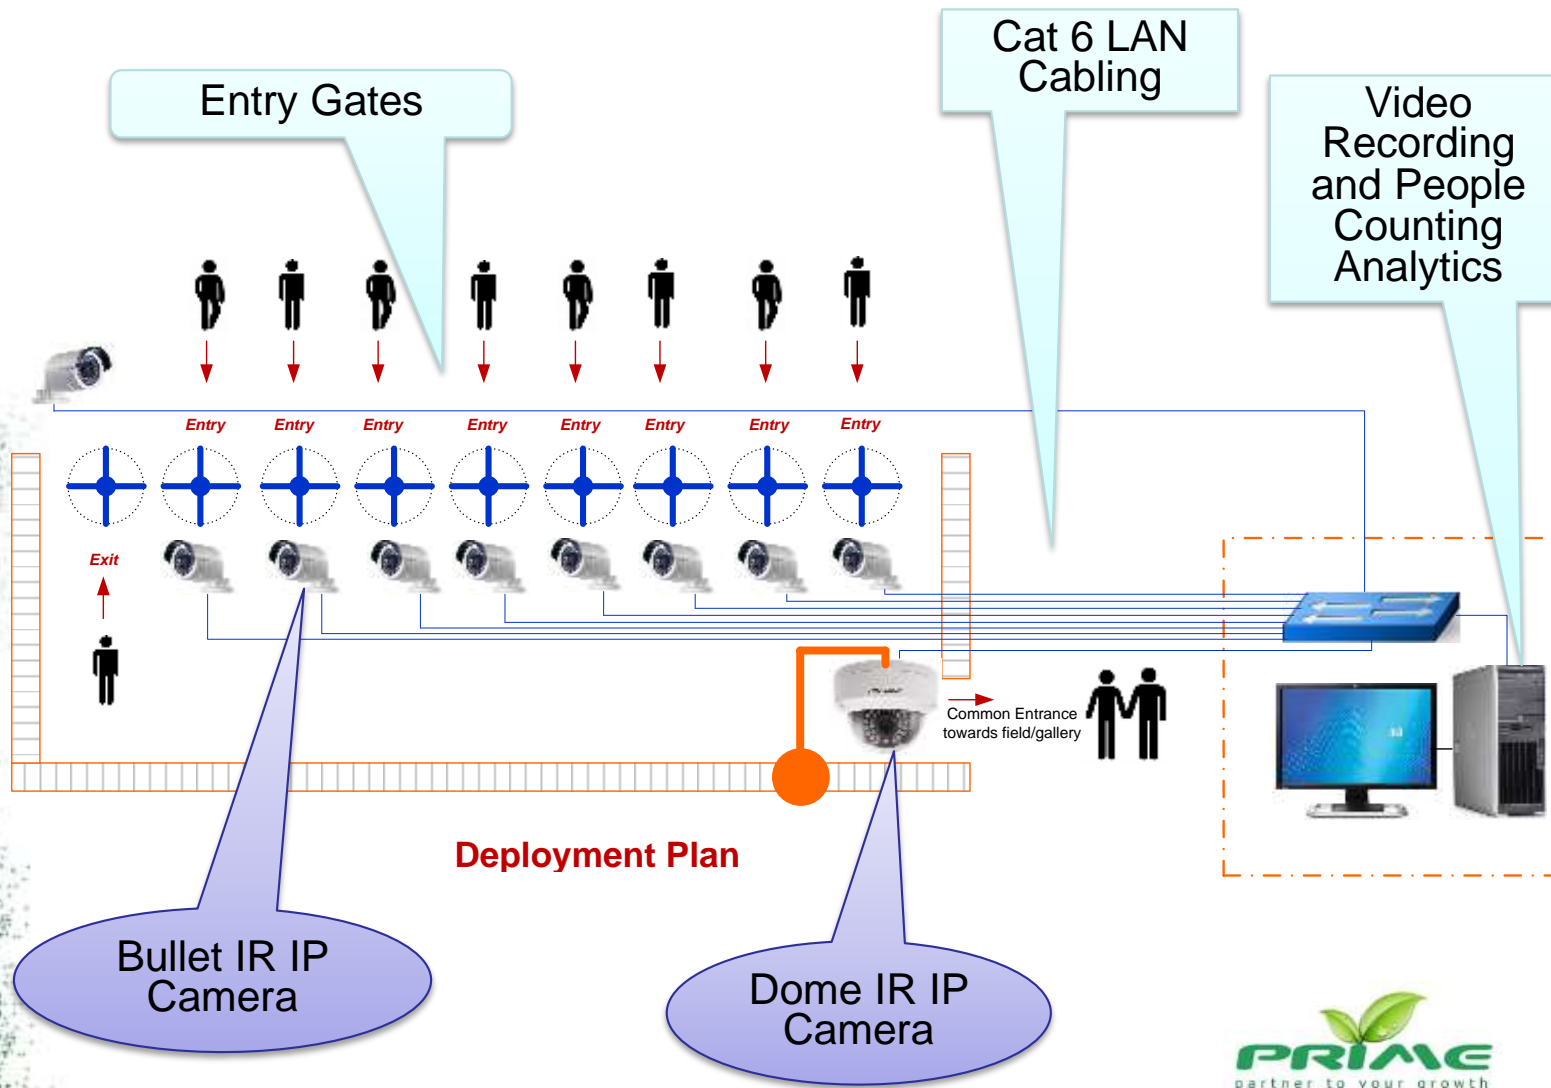

Remote Access

Myth vs Reality

- It's not only Cameras, DVR/NVR
- Need compatible accessories (RJ45/3+1 Cable, Connector, SMPS, IP66 Casing , PoE etc)
- Need Server, Storage, Backup, Network
- Need Process
- Scalability
- Future Readiness
- Inter-Operatibility
- Not reactive measures, but proactive management
- Video Management
- Analytics

Typical Deployment Case Study

Real-Time Site Snaps

Major Partnerships

....and So on

Key Surveillance Customers

swissôtel KOLKATA

 **usha martin**

 **SIMPLEX**
INFRASTRUCTURES LTD

OnProcess[®]
TECHNOLOGY

 **GLOCAL**
HEALTHCARE

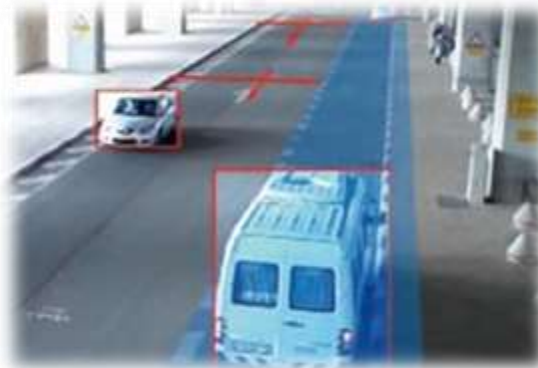

....and So on

 **PRIAG**
partner to your growth

Enhanced Applications

- People Counting, Traffic Management, Access Control
- Automatic Gate Entry / Smart Gate Solutions
- Boom Barriers
- Video Door Phone

Value Additions by Prime

- Solution Centric Approach
- OEM Agnostic Framework
- Domain Expertise to act as your IT Partner/Consultant
- Previous Background in City Surveillance, Data Centre

Prime Offerings

System Integration

- Data Centre/ Infrastructure Built
- Server / Desktop Virtualization
- Voice-Data Solutions, Connectivity
- VOIP/Call Centre Solution
- Hardware, Software Supply & Installation
- Security Implementation & Support
- DLP, Access Control
- Mailing Solution
- Linux Based Solution
- CCTV/IP Camera/Surveillance

Prime Offerings

Managed Services

→Data Center Management

- Servers, Databases, Middle Tier Apps, Messaging, Storage Systems

→Network Management

- Routers, Switches, VoIP devices, Network Links

→Security Management

- Firewalls, Intrusion Protection Systems, VPNs, PKI, AAA Tools

→Desktop Management

- Desktops, Laptops, File & Print Servers

→Mobile Device Management

Prime Offerings

Consulting

- Vulnerability Assessment & Penetration Testing
- Security Policy & Procedure Design
- High-level & Detailed Risk Assessment
- ISO 27001 -Information Security Management System (ISMS)
- ISO 20000 - IT Service Management (ITSM)
- Documentation Services - IT Processes, Applications, Policies & Procedures

Thank you.
